

MUHAMMAD HAMZA LATIF

AI PRODUCT MANAGER | PRODUCT OWNER
(CSPO®, PSPO I™) | ML-DRIVEN SAAS

SUMMARY

AI Product Manager and Product Owner with 8+ years of experience building digital and AI-enabled products. Specialized in explainable AI, ML-driven SaaS platforms, and data-informed product decision-making.

EXPERIENCE

neuefische GmbH - School and Pool for Digital Talent Berlin, Germany
AI Project Manager (AI Product & Delivery Focus) 09/2025 - 02/2026

- Built and delivered an ML-powered B2B SaaS product ("AI Compass") from discovery to deployment.
- Defined product vision, roadmap, prioritization, and measurable outcomes.
- Translated business challenges into structured AI product requirements and user stories.
- Designed a dual-engine system combining deterministic scoring with ML models (clustering, anomaly detection, peer benchmarking).
- Coordinated frontend (React), backend (FastAPI), and ML workflows in Agile sprints.
- Applied explainable and responsible AI principles to ensure transparency and stakeholder trust.

Klarstein (formerly Berlin Brands Group) Berlin, Germany
Senior Product Owner / Digital Project Lead 07/2023 - 06/2025

- Supervised Agile delivery of large-scale e-commerce platforms and internal digital systems.
- Directed UX/UI redesign of high-traffic websites and IoT mobile applications.
- Managed strategic tool migrations: Search (FactFinder → Bloomreach), Personalization (Dynamic Yield → Bloomreach), Consent (OneTrust → UserCentrics).
- Oversaw development of a custom in-house CMS for marketing campaign management.
- Ensured GDPR-compliant implementations and executive-level stakeholder alignment.

Zennova Home Abu Dhabi, United Arab Emirates
Product Owner / Digital Project Manager 11/2021 - 02/2023

- Guided ERP system development and enterprise-wide implementation.
- Managed the launch of four e-commerce platforms.
- Oversaw HRM web and mobile application development.
- Drove digital transformation across operations and procurement.

BLOOMR Ra's al Khaymah, United Arab Emirates
Product Owner / Digital Project Manager 02/2017 - 10/2021

- Led development and redesign of an e-commerce platform.
- Managed IT infrastructure implementation across retail and warehouse.
- Directed cloud migration of accounting systems.

Loops & Logic Lahore, Pakistan
PHP Developer 02/2016 - 01/2017

- Developed PHP-based web applications in HRM and Healthcare domains
- Built backend systems and database integrations

Revenue Department Divisional Office Sargodha, Pakistan
IT Support 06/2012 - 01/2016

- Supported IT systems across government departments
- Maintained system stability and reporting infrastructure
