CAREER SUMMARY

AI Product Manager and Certified Product Owner (CSPO®, PSPO I™) with 10+ years of experience building digital and AI-powered products from discovery to scale. Proven ability to translate complex business problems into structured product strategies, roadmaps, and measurable outcomes.

Specialized in ML-driven SaaS, explainable AI, and data-informed decision-making. Strong technical foundation (Python, FastAPI, React, ML pipelines) enables effective collaboration with engineering teams and delivery of scalable, high-impact solutions.

CORE EXPERTISE

- AI Product Management & Strategy
- Product Ownership & Backlog Prioritization
- ML-Driven SaaS Development
- Agile Delivery (Scrum, Kanban)
- Explainable & Responsible AI
- Stakeholder Management & Alignment
- Roadmapping & OKR Definition
- User Story Mapping & Requirements
- UX/UI Optimization & CRO
- Data Analysis & KPI Tracking
- E-Commerce Platforms (Shopify, Marketplaces)
- Cross-functional Team Leadership

PROFESSIONAL EXPERIENCE

AI Product Manager (AI Project Delivery)

Sep, 2025 — Jan, 2026

Neuefische GmbH | Berlin, Germany

- Delivered an ML-powered B2B SaaS product (AI Compass) from discovery to production in Agile sprints
- Defined product vision, roadmap, and KPIs; aligned business and technical stakeholders
- Translated complex requirements into user stories and acceptance criteria
- Designed hybrid scoring engine (rule-based + ML clustering, anomaly detection)
- Coordinated React frontend, FastAPI backend, and ML pipelines across teams
- Ensured explainability, transparency, and trust in AI-generated outputs.

Senior Product Owner (Digital Project Lead)

July, 2023 — June, 2025

Klarstein (formerly Berlin Brands Group) | Berlin, Germany

- Owned Agile delivery of large-scale e-commerce platforms and internal systems
- Led UX/UI redesign of high-traffic websites and IoT apps, improving conversion rates
- Managed platform migrations (FactFinder & Dynamic Yield to Bloomreach, OneTrust to Usercentrics)
- Delivered custom CMS, reducing campaign deployment time significantly
- Ensured GDPR compliance across all digital products
- Presented product strategy and performance insights to C-level stakeholders
- Mentored junior product owners and led backlog refinement sessions.

Digital Project Manager

Nov, 2021 — Feb, 2023

Zennova Home | Abu Dhabi, UAE

- Led ERP development and company-wide rollout across operations and finance
- Delivered 4 e-commerce platforms with integrated catalog, pricing, and fulfillment systems
- Managed HRM web/mobile app development from requirements to go-live
- Defined KPIs for operations, fulfillment, and customer experience.

E-Commerce Project Manager

Feb, 2017 — Oct, 2021

Bloomr.ae, Ras Al Khaimah, UAE

- Owned Shopify platform development, scaling and optimization
- Managed product backlog and a cross-functional team of 20+
- Improved operational efficiency by 30% through process automation

- Led cloud migration of accounting systems with zero downtime
- Defined KPIs and drove roadmap decisions using data insights.

Software Engineer (PHP Developer)

Feb, 2016 — Mar, 2017

Loops N Logic | Lahore, Pakistan

- Built PHP-based applications for HRM and healthcare domains
- Developed backend systems and database integrations (MySQL)
- Delivered scalable and responsive web solutions.

IT Support Specialist

June, 2012 — Jan, 2016

Government of the Punjab | Sargodha, Pakistan

- Maintained IT systems and ensured operational stability
- Standardized reporting processes across departments
- Managed hardware procurement and infrastructure setup.

EDUCATION

Masters in Information Technology

2013 – 2016

University of Sargodha

Bachelors

2011 – 2013

University of Sargodha

CERTIFICATIONS

- Certified Scrum Product Owner (CSPO®) – Scrum Alliance
- Professional Scrum Product Owner (PSPO I™) – Scrum.org
- Professional Scrum Master I (PSM I™) – Scrum.org
- AI Project Manager Bootcamp (AIPM) – neufische / Spiced Academy
- Google AI Essentials – Coursera
- Business Analysis & Process Management – Coursera

KEY PROJECTS

Projects focused on building and optimizing digital products with strong emphasis on user experience, customer journeys, and conversion optimization.

- **AI Compass (AI Maturity Assessment Platform)** <https://the-ai-compass.com>
Developed a platform that evaluates and benchmarks AI readiness across organizations by structuring complex inputs into a clear scoring system. Focused on building a logical flow, understandable outputs, and intuitive interaction for users.
- **ProductLogik (Customer Feedback & CX Optimization Tool)** <https://productlogik.com>
Built a SaaS platform that analyzes raw customer feedback to help identify patterns and support product prioritization. Designed and developed the system with attention to structured outputs, usability, and clarity of insights.
- **HetaVideo (Streaming Application)** <https://hetavideo.com>
Created a web-based streaming platform for media content, implementing features for content organization, playback, and user interaction, with attention to smooth navigation and usability
- **Bloomr (Shopify E-Commerce Platform)** <https://bloomr.com>
Built and continuously improved a Shopify-based e-commerce platform from scratch, managing store setup, content, product catalog, and ongoing enhancements over multiple years. Worked closely on improving UI, content structure, and overall user experience while supporting business operations and growth.
- **Zennova Home (Shopify E-Commerce Platform)** <https://zennovahome.com>
Developed and launched a Shopify store from scratch, contributing to store setup, content creation, and operational workflows. Focused on building a structured and user-friendly platform while aligning with business requirements across fulfillment and customer handling.
- **Zennova Group (E-Commerce Optimization Projects)** <https://zennovacarpets.com> & <https://tire.ae>
Worked on improving existing e-commerce websites by enhancing UI layouts, resolving technical issues, and refining user flows, ensuring smoother navigation and better usability across platforms.

- **TeleResources Pakistan (WordPress E-Commerce & Digital Platform)** <https://teleres.com.pk>
Developed a WordPress-based website to present company products and services, focusing on clear content structure, responsive design, and ease of navigation to ensure a professional and accessible digital presence.

TOOLS & TECHNOLOGIES

- **Artificial Intelligence & Machine Learning:**
Python, FastAPI, Scikit-learn, ML Pipelines, Explainable AI, OpenAI API (Codex), Gemini API (Antigravity), Anthropic API (Claude Code), AI Assisted Software Development
- **Frontend/Backend:**
React, TypeScript, PostgreSQL, MySQL, REST APIs, PHP
- **Product & Analytics:**
Jira, Confluence, Notion, Figma, GA, Hotjar, Power BI
- **E-Commerce & Digital Experience Stack:**
Shopify, WordPress, Amazon, Noon, Etsy, Stripe, personalization engines (Dynamic Yield), search and experience platform (Bloomreach)

LANGUAGE PROFICIENCY

- English (Professional Proficiency)
- German B1 (Intermediate)
- Urdu (Native)
